DevOps Engineer Intern with hands-on experience in AWS, Linux, Git, Docker, Jenkins, Kubernetes, and GitHub Actions. Skilled in building automated CI/CD pipelines and deploying scalable, secure cloud infrastructure.

PROFESSIONAL EXPERIENCE

OSPIDERS

Bengaluru, Karnataka

DevOps Engineer Intern

Feb 2026 - Present

- Gained hands-on experience in Git, GitHub, Linux, Shell Scripting, and AWS cloud services (EC2, S3, VPC, IAM)
- Worked with version control, Linux command-line operations, and basic automation tasks
- Practiced containerization using Docker, managing image build, tag, and deployment workflows
- Built foundational knowledge of CI/CD pipelines using Jenkins and GitHub Actions
- Learned cloud fundamentals and deployment concepts using AWS
- Building foundational knowledge in DevOps practices and infrastructure management

TECHNICAL SKILLS

Cloud & Infrastructure: AWS (EC2, S3, VPC, IAM, RDS, Auto Scaling, CloudWatch)

Container & Orchestration: Docker, Kubernetes (kubectl, manifests, deployments, services)

IaC & Configuration Mgmt: Terraform (infrastructure provisioning), Ansible — fundamentals

CI/CD: GitHub Actions, Git, GitHub (branching, PRs, hooks)

Observability & Monitoring: CloudWatch, Prometheus & Grafana — conceptual; Linux system metrics

Languages & Scripting: Bash / Shell Scripting, Python, JavaScript, HTML/CSS

Operating Systems: Linux (Ubuntu) — CLI, file systems, user management, process management, cron

Networking: TCP/IP, DNS, HTTP/HTTPS, TLS/SSL, VPC subnetting, Security Groups, Route Tables

Security & Compliance: IAM policies & least-privilege, Security Groups, encryption at rest/transit (RDS), firewall basics

Databases: MySQL (RDS), Oracle SQL

PROJECTS

VPC Architecture Setup Using Terraform

[GitHub Repo](#)

Infrastructure as Code (IaC) Project

Terraform, AWS VPC, EC2, IAM

- Automated provisioning of a custom **AWS VPC** using **Terraform**, eliminating manual console setup and ensuring repeatable deployments.
- Defined a VPC with a CIDR block **10.0.0.0/16**, configuring both public and private subnets
- Configured an **Internet Gateway**, **NAT Gateway**, route tables, and route table associations to enable secure, structured network communication
- Implemented **Security Groups** to control inbound (SSH, HTTP) and outbound traffic
- Deployed **EC2 instances** into public and private subnets via Terraform, validating end-to-end connectivity
- Structured Terraform code into reusable modules/files for better maintainability

Containerized Static Web Application Deployment Using Docker & Nginx

[GitHub Repo](#)

Containerization Project

Docker, Nginx, HTML/CSS

- Designed and built a Docker container to host a static HTML/CSS website using the official Nginx base image
- Authored a production-style Dockerfile with an optimized layer structure for lightweight, fast image builds

- Configured container port mapping to expose the web application and verified live access via browser
- Managed the complete Docker lifecycle — build, tag, run, inspect, stop, and push to a registry

Linux System Administration Automation Using Bash Scripting

GitHub repo

Infrastructure Automation Project

Bash, Shell Scripting, Linux CLI

- Developed a **menu-driven Bash application** to automate repetitive Linux administration tasks
- Automated **user creation, password setup, file copying**, disk usage monitoring, and package installation workflows
- Used core Linux commands — **useradd, id, df, awk, sed, cp, apt** — to build reliable automation logic
- Implemented **conditional logic, functions, and error handling** to improve script robustness and reusability
- Reduced manual system administration effort by automating routine, repetitive tasks

EDUCATION

Shree Devi Institute Of Technology (SDIT)

2022-2026

B.E Computer Science & Engineering, CGPA - 7.1

Mangaluru, India

CERTIFICATIONS

- [AWS Cloud Practitioner Essentials](#)
-

ADDITIONAL INFORMATION

- **Languages:** English (Professional), Kannada (Fluent), Tulu (Native), Hindi (Limited)
- **Interests:** Photography & Videography (Freelance) — [@storiesofcp](#)
- **Achievements:** Won 10+ prizes across multiple inter-college fests, spanning technical & cultural
- Served as **Head of the Media Club**, managing team activities and coordinating media coverage for **college-level** fest programs
